

EN Software

Software can be used with all Piusi products equipped with PC data interfaces (Cube MC, SelfService MC and FM, MC-BOX).

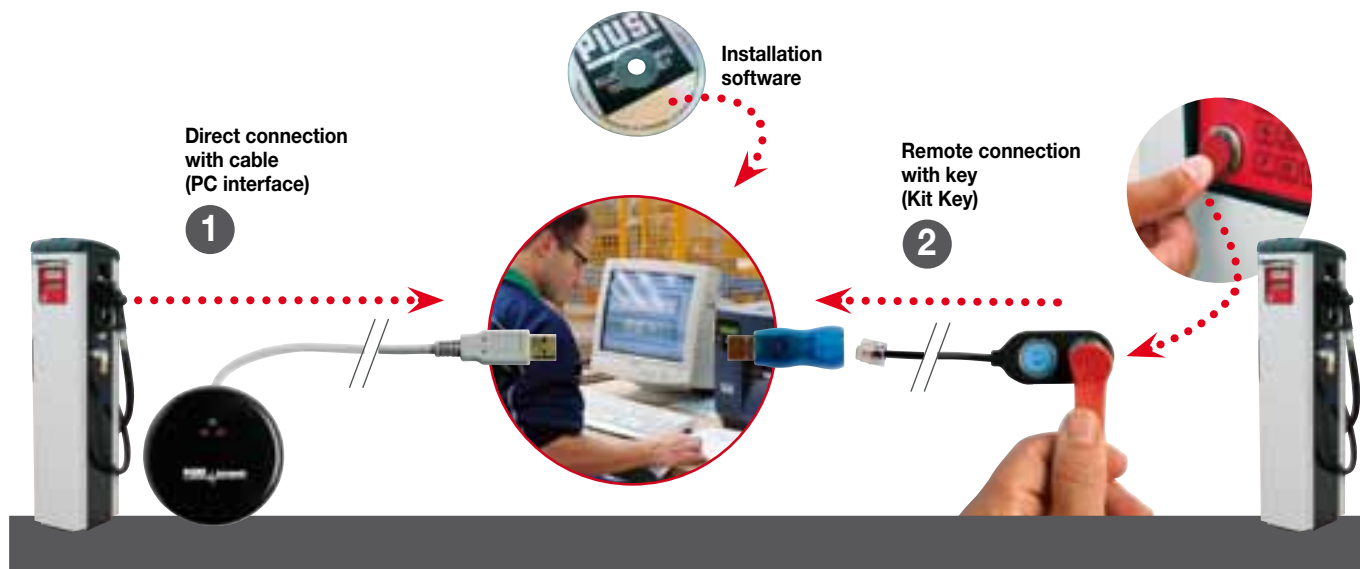

The software arranges dispensing data for analysis and print out. Data can be sent direct to a PC via cable (see PC interface) or via an electronic key with memory and a key reader for connecting to PC (see Kit Key).

The following accessories are available:

User Key, composed of 10 user keys each one allowing identification on column. Manager Key, a key reserved for owner use supplied with memory for data exportation. Translation Key, a key for translating messages on the column panel, in requested language. The dispenser is configured with English messages at the factory.
